## Supplier In Focus

N.A.W. Controls are proud to announce that we are now the Australian Distributor for C&S Electric from India.

C&S has been a brand well known in the Australian market for many years and this new collaboration will help add value to N.A.W. Controls and clients by supporting well known products and introducing new products along the way.

From well-known products like the CSSD isolators and CSCS changeover switches to new lines like Busduct, we at N.A.W. Controls will be able to assist in your enquiries.

Founded in 1966, C&S Electric has a proud history in the electrical industry for innovation and reliable products. With employee numbers over 5000, 10 manufacturing plants and export business to over 85 countries, C&S Electric is a company N.A.W. Controls is proud to be associated with and look forward to many years of sustainable cooperation.

# STAFF NEWS

## LET'S GET TO KNOW SIMONE

### What is your role, and what does a typical day look like for you?

As the Receptionist at N.A.W., I am often the first point of contact for our customers, welcoming visitors and managing the many phone calls we receive each day. My role also includes a range of administrative tasks, such as filing paperwork, ordering stationery, and maintaining staff amenities. It's a diverse and rewarding position that keeps me busy and enables me to support all areas of the business.

### How long have you been with N.A.W.?

7 Years and 3 Months.

### What do you enjoy most about working at N.A.W.?

The people, it's fun working here.

### What's one item you couldn't live without during the workday?

My water bottle- I fill it at least 10 times a day, oh and my glasses, I couldn't live without them.

### Tell us something surprising about yourself.

I'm a major animal lover; I love all animals (especially my cats Jezzi & Izzy).

### Coffee, tea, or something else?

Something else, usually in a tall glass with ice.

### Favourite app?

Instagram – I like watching all the funny sh\*t.

### Favourite holiday destination?

Airlie Beach.

### Last song you listened to?

Mr Brightside by The Killers

## N.A.W. BABIES

We would like to welcome Chloe  
Maree Peckham, born May 26<sup>th</sup>

Congratulations to Carli, Jake & big  
sister Ella.

## In other news...

We recently sent Blake from Internal Sales to Sydney to attend a product training program with Phoenix Contact. Over the course of the visit, Phoenix Contact provided detailed training on their product range, helping Blake gain a deeper understanding of their solutions, applications, and key features.

Ashleigh gained her forklift licence.

## Ron's Corner

### DID YOU KNOW?

Ohm's Law, formulated by Georg Simon Ohm in 1827, defines the linear relationship between voltage (V), current (I) and resistance (R) in an electrical circuit, stating that current is directly proportional to voltage and inversely proportional to resistance ( $V=IR$ ).

It is a foundational principle used to calculate power, determine necessary resistor values for components like LEDs, and analyse circuit behaviour.

### JOKE OF THE QUARTER

Maturing in marriage is knowing that most days she's running on a made-up schedule in her head and it's your job to make sure you follow it even though she'll never tell you what it is.

**Name:** Otto (Jack is my dad)

**Age:** 4 years old

**Breed:** Blue Heeler

**Favourite Toy:** Ball, any ball.

**Favourite Word:** "Car" makes me go bonkers!

**Best Friend:** Myles, my hooman brother.

**Craziest thing ever done:** I pulled the hose reel out, used it as a chew toy and made it into a sprinkler, dad wasn't too happy but it was a fun day!
